DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

I. Group 1, claim(s) 17-28, drawn to an LCD or method of manufacturing an LCD comprising using two liquid crystal domains (or regions) having different pre-tilt angles, and forming a disclination line between the two to aid a transition into bend alignment.

II. Group 2, claim(s) 39-48; drawn to an LCD having a structure which concentrates an electric field, via varying liquid crystal layer thickness, an aperture, or some other means.

III. Group 3, claim(s) 49-54, drawn to a method for driving an LCD defining particular splay elastic coefficients, pretilt angles, and/or ratios of main and secondary electric fields.

2. The inventions listed as Groups 1-3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical features which define the 3 groups above are not the same, nor is there any relation between them. Therefore, the invention of these claims does not fulfill the requirements for unity of invention.

Art Unit: 2871

3. A telephone call was made to Michael E. Fogarty, Reg. No. 36,139, on 17 May 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Schechter whose telephone number is (571) 272-2302. The examiner can normally be reached on Monday - Friday, 9:00 - 5:30.
